# CITY OF GEELONG WEST

URBAN CONSERVATION STUDY: BUILDING IDENTIFICATION FORM.

BUILDING ADDRESS

45 WELLINGTON STREET

#### HISTORY

'Tyrone Villa' appears to have been built circa 1880 for James Moorhead (Moorehead), a gentleman. It was described at that time as a brick house having six rooms, a coach house and a stable. James may have died just before the turn of the century as Mary Ann Moorhead is listed as the owner and occupier in 1900. It is situated on an allotment which is unusually large in Geelong West.

## DESCRIPTION

It is a single storey brick building with a hipped roof and concave verandah clad in corrugated iron. The brickwork of the walls and chimneys is stuccoed. It is a well proportioned building with fine window and door enframements, and restrained verandah valance and brackets made of cast iron. The front doorway has a narrow sidelight on either side of the door. These sidelights and the elaborate chimney decoration are the main indication that it was built in the Late Victorian era.

# POLICY/RECOMMENDATIONS

G.R.P.S.

A more appropriate fence would greatly enhance the character of this building as would more appropriate window joinery and paint colours.

### REFERENCES

Borough of Geelong West Rate Books, 1878-9, 1883-4, 1884-5, 1889-90, 1895-6, 1900-1.

#### SIGNIFICANCE

A substantial building for its time it is one of the few Late Victorian homes made of brick in Geeleng West. It is of local significance.
