DESCRIPTION	elevated on glazed Mars at front left oversized sa visible gard Alterations - a Georgia Composite	This is a double-storeyed brick house with an apparently simple rectangular plan across the block elevated on a falling site. There may be a basement at the rear. It has a single gabled roof, with glazed Marseilles tiles, exposed rafters, and at right, a garage wing projects forward. It is entered at front left up concrete steps, with a large hit and miss brickwork section at centre, beneath two oversized sash windows at first floor level. It is paved at front behind a high brick fence with no visible garden, but mature trees. The brick has been painted white.  Alterations to the house include:  - a Georgian fanlight over the door under a triangular pedimented porch supported on slender Composite cast metal columns  - the white painted exterior, and wrought iron vehicular gates.					
	No Ellis Stones garden is visible.
