DESCRIPTION

-

Condition - **Integrity** Not known

Threats Road widening **Key elements**

Designer

HISTORY

Originally seven trees were recorded on the National Trust's Register of Significant Trees of Victoria and described as "... a fine example of the open woodland which once covered much of the area ..."

Two very large River Red Gums form a dominant landmark by virtue of their size and topographical location on a slight rise before the junction with Porter Street.

The tree by the roadside will probably be detrimentally affected by current road widening.

Creation Date **Change Dates**

Associations **Local Themes**

1.05 - Landmark trees

STATEMENT OF SIGNIFICANCE Of State botanical significance and local significance as a landmark.
