

THE DYKE

Place No. 60

ADDRESS	-	Last Update
	Warrandyte	

DESCRIPTION	-		
	Condition	-	Integrity Not known
	Threats		Key elements
	Designer		

HISTORY	This extensive working followed a vein of decomposed rock. The Warrandyte Freehold Goldmining Company was formed in 1876 to work the diorite dykes (a geological formation containing decomposed rock), on the Elliott Freehold Estate, (the area owned by Captain Selby after 1883). Nearly half the gold in Warrandyte was found in this property. [24] The tunnel collapsed many years ago and can now be seen as a deep cleft in the ground. [25]
