**HISTORY** St Stephens was built in 1939 to replace the earlier church. It was the third Anglican church on this site in Warrandyte, with the first being built in 1870, replaced by a larger building in 1906 which was destroyed in the 1939 bushfires [130]. The 1939 church was designed by architect Louis Williams as a modular building to enable future extension. The 1991 extension is by architect Jock McNeish, with David Hobday as builder [131].
