3.3.3.5 UCA No.1 (E)

Sackville and Wrixon Streets contain 8 houses that have been designated Grade A in the study. Most are mansions of considerable size built in the late Victorian period, that are set on their original, generous allotments of land. Between these there is a high concentration of Grade B and C buildings. They combine, particularly at the western end of the street, to form an impressive collection of large houses, many of architectural distinction. Of the Grade B and C houses in the area, most were built after the Victorian period, but they have maintained the architectural distinction of the street. The Urban Conservation Area is recommended with the intent to maintain this group of large houses on their original land holdings.
