Description	<p>The site is currently covered by a two stories building. The original building may be incorporated into some of the outbuildings in the rear of the site but access to this area was limited. As a registered historical building this site is protected but it should be noted that the site also has archaeological potential.</p> <p>The buildings shown on the 1864 plan fronting Napier Street would have been removed by the construction of the service station currently on the site.</p>
